PARNELL'S FUNERAL

A Great Demonstration Expected in Dublin.

ARRANGEMENTS ALL COMPLETE.

The Followers of the Dead Leader Show No Sign of Holding Out the Olive Branch of Peace, and Prospects Are Not Very Favorable for the Reunion of the Two Irish Factions—Other Foreign News.

LONDON, Oct. 10.—All indications point to the Parnell funeral as one of the greatest demonstrations that Dublin will ever have witnessed. The story of the grief of Parnell's aged mother has excited deep sympathy, and the Parnellite leaders who are in charge of the funeral arrangements say that, if any provision could have been made to let the mother have a last look at her son, it would have been done so, but that, even if she were here now it would have been difficult, owing to the rapid change in the remains.

Meantime the condition of Mrs. Parnell occasions grave anxiety, and her brother, General Sir Evelyn Wood, who has not had anything to do with her for some time, partly owing to the divorce scandal, and partly to disputes about the property of Lady Wood, sent a message today, inquiring as to her health. Her eldest daughter is in constant attendance upon her, and is herself worn almost to the point of illness by the ordeal of the past few days.

The Parnellite members of parliament have so far flocked together, and show no signs of holding out an olive branch. At present, judging from Irish advices, the Parnellite cause is on the high tide of popularity, and the followers of the departed chief have been urged by telegrams from many quarters to maintain their identity as the national representative body. While as yet nothing decisive has been said, and there will be no formal action until after the funeral, the prospects are not favorable to reunion.

Republican Movement in Norway.

LONDON, Oct. 10.—Advices from Christiania, Norway, say that matters there are assuming an alarming appearance. The people are every day becoming more irritated against Sweden, and determined to assert complete separation from that country. The sentiment in favor of declaring Norway a republic is not founded on agitation among the lower classes, but is widely entertained by the wealthy residents of Norway. These are extremely democratic, as a rule, both in their ideas and manners of living, and they are tired even of the comparatively democratic kingcraft of the present reigning family of Sweden and Norway. The Swedes have already resolved to keep Norway by force of arms, if necessary, and a considerable body of troops is ready to enter Norway at any time.

A King's Funeral.

STUTTGART, Oct. 10.—The funeral of King Carl of Wurtemberg, took place at 10 o'clock yesterday. A memorial service was held in the marble room. Beside the coffin were the insignia of royalty. At the conclusion of the service the body was taken to the old castle of the kings of Wurtemberg, emblems of mourning being everywhere displayed in Stuttgart. Upon arrival at the old castle the body was conveyed to the chapel, and the court chaplain preached the sermon, after which the body was deposited in the vault, the royal personage being witnessed the blessing of the remains.

More Rioting in China.

LONDON, Oct. 10.—Dispatches dated September 27, received here from Amoy, the seaport town of China on the island of the same name, province of Fo Kien, nearly opposite the center of the island of Formosa, announce that there has been serious rioting forty miles from the town of Amoy. The population of Amoy, amounting to 300,000 people, is in a state of great excitement. The riot was caused by fiscal abuses. Several mandarins and other officials were killed by the rioters. The riots, as these dispatches were sent, had been quelled.

Sensational Political Posters.

CORK, Oct. 10.—Large posters have been placarded on walls, fences and other places throughout the city. The placards have wide black borders, and bear the words: "Murdered to please Englishmen," together with verses denouncing the McCarthyites and the United Ireland articles, declaring that Parnell was murdered, and imploring the people to remain tranquil. The posters are stirring up much excitement. The Freeman's Journal and United Ireland both denounce this placarding as an attempt to incite disorders.

Chicago to Have an Association Club.

CHICAGO, Oct. 10.—After a great deal of preliminary talk the American Association yesterday made its first move towards placing an Association club in this city. The secretary of state yesterday issued articles of incorporation to the Association Base Ball Club of Chicago, with a capital stock of \$50,000. The incorporators are given as Charles E. Rollins, Malcolm McDonald, Jr., and W. S. Johnson.

Blaine Will Vote at Home.

NEW YORK, Oct. 10.—The special dispatch from Washington to The Mail and Express says it is stated, on authority of one of Secretary Blaine's friends, that his return will be delayed until after the November election.

Ingalls is Coming.

ATCHISON, Kan., Oct. 10.—Ex-Senator John J. Ingalls has accepted an invitation from Major McKinley to make some speeches in Ohio this month.

TYPESETTING CONTEST.

A Six Days Test of Four of the Latest Leading Machines.

CHICAGO, Oct. 10.—A special committee of the American Newspaper Publishers' association, consisting of Colonel Frederick Driscoll, of the St. Paul Pioneer Press, E. H. Woods, of the Boston Herald, and Major W. J. Richards, of the Indianapolis News, will conduct a typesetting machine contest during the coming week in the Chicago Evening Post building. The machines which will compete are the Mergenthaler Linotype, the Rogers Typograph, the McMillan Typesetting machine, and the St. John Type-Bar.

Commencing Monday, Oct. 12, the test will continue privately for six days, and for one week thereafter, commencing Monday, Oct. 19, the machines will be on exhibition to the public and newspaper men everywhere. Newspaper proprietors and publishers in all parts of the country manifest great interest in the contest, the first of the kind ever held, and it is expected that a large number of publishers will take advantage of the opportunity to see the various machines at work together and make comparison as to their relative merits.

To assist them in their work the committee will have with them the respective foremen of their composing rooms, and the capacity of the machines for superseding the work of setting type by hand will be thoroughly investigated. At the same time there will be exhibited also a new method of stereotyping known as the cold stereotyping process, whereby plates are made with a rapidity never before attained and without heating the type. It is probable that other mechanical appliances of interest to newspaper men will also be exhibited.

Trainmen's Deliberations.

GALESBURG, Ill., Oct. 10.—The board of railway trainmen's convention consumed the entire day in trying to settle on a committee to examine the books and accounts of the grand secretary and treasurer, and it was not until late in the afternoon that any conclusion was arrived at. The committee consists of E. S. Bodman, a member of the old board; S. C. Young, one of those appointed by Grand Master Wilkinson, and R. I. Powers. The committee will commence its labors at once. The Northwestern trouble will be the next special order.

Mrs. Parnell Ill.

BORDENTOWN, N. J., Oct. 10.—Mrs. Delia T. S. Parnell, mother of the late great Irish leader, is gravely ill. She has been prostrated ever since the news was received of her son's death. It is feared that the blow has been too great for her and that her mind is unbalanced. This morning she got up from her bed and in a greatly excited manner declared she was going to New York where she would sail for Ireland for the purpose of seeing her beloved son. She was in a highly hysterical state and a physician was hastily summoned.

Last Day of the Races.

TERRE HAUTE, Ind., Oct. 10.—The races ended with darkness and with the best event of the week. The event of the day was the free-for-all pace carried over from Thursday, in which the fastest seven heats ever gone in a race were made. During the afternoon Del March, driven by Budd Dobie, lowered his record from 2:12 to 2:11 1-2. The quarter was done in 33 seconds, the half in 1:06, the three-quarters in 1:38 1-4, and the mile in 2:11 1-2. All the stables were shipped last night to Lexington.

Making Way for a Railroad.

COLUMBUS, Ind., Oct. 10.—A special meeting of the city council was held last night and right of way granted the Pittsburg, Cincinnati, Chicago and St. Louis railway to build their tracks around the west and south sides of the city, and a number of parts of streets and alleys vacated for their use, in order to give them track and yard room to move their yard tracks and switches out of the center of the city. Work on the new improvements began this morning.

Largest Pearl Ever Found.

MARTINSVILLE, Ind., Oct. 10.—J. W. Tarleton, of this city, is exhibiting a pearl which he found in White river, one mile west of here, a few days ago. The pearl weighs two and one-half pennyweights, and is computed to be worth \$300. It is oval shaped and is not exactly perfect. It is said by an expert to be the largest pearl ever found.

Mysterious Disappearance Explained.

CHICAGO, Oct. 10.—Mrs. Dr. Bernhardt, the wife of the well known oculist, who suddenly disappeared from the home of her husband two or three days ago, has been found. She has been spending the last few days with Mrs. Rogers, an intimate friend of her's, and owing to illness was unable to let any one know where she was.

Postoffice Robbed.

HARTFORD, Oct. 10.—The postoffice at Suffield, Conn., was robbed of \$50 and a quantity of postage stamps by burglars, who blew open the safe and who also took a number of gold watches belonging to a jeweler, in whose store the office is located. A lady living near saw the burglars at work, but was too frightened to give the alarm.

Colored Couple Elope.

LONDON, O., Oct. 10.—An elopement in cultured colored circle, created a sensation here yesterday. Miss Minnie Jenkins, a refined colored girl and graduate of the London high school, eloped with Rev. T. F. Williams, pastor of the African Methodist church. They went to Fort Wayne, Ind.

Testing Kentucky's Constitution.

FRANKFORT, Oct. 10.—Walter Evans, believed to represent the Louisville and Nashville railroad, filed suit to have the new constitution annulled on the grounds that over one hundred changes were made after it had been voted upon. It is generally believed that the constitution will stand.

WASHINGTON NEWS.

An Extra Bulletin Issued from the Census Office.

EDUCATIONAL STATISTICS.

Returns Made from Private and Parochial Schools More Complete Than Ever Reported to That Office—A Subject of Almost National Interest—Dispatches from the National Capital.

WASHINGTON, Oct. 10.—The census bureau has issued an extra bulletin on education as a summary of statistics heretofore published, but bringing returns of private and parochial schools up to July 1, 1891, and giving parochial schools by states and by communions, not before shown in any census.

The total school enrollment for the United States reported July 1, 1891, was close to 14,920,000; the total public school enrollment, including about 65,000 in universities, schools for training teachers and so on, nearly 17,301,000; in private schools and in parochial not far from 750,000 each.

A table gives the national population and school enrollment of each decade from 1840, when the first educational census was taken, showing a gain of population from 1850 to 1870 of 66.26 per cent.; from 1870 to 1890 of 62.41 per cent.; of school enrollment from 1850 to 1870 of 97.94 per cent.; from 1870 to 1890 of 97.21 per cent., indicating nearly the same relations of population and school enrollment in each period, notwithstanding great local changes meantime.

The relations of white and colored attendance in the south fill two tables, indicating that 21.68 per cent. of the white and 18.56 per cent. of the colored population were enrolled in school in the census year, while the gain over 1880 was 45.91 per cent. for the white, and 61.58 per cent. for the colored.

Eleven communions are given as maintaining parochial schools, the Catholics having more than twice as many pupils as all others, and the Lutherans about one-fifth of the whole number.

A table presents the public and private schools grouped as superior, secondary and elementary, given as suggestive rather than authoritative, in the present condition of school records. Public schools apparently have about twelve times as many elementary pupils as private schools; are close to the private schools in secondary pupils, and have less than half as many in superior instruction as private institutions.

Returns received since this bulletin was prepared will add considerably to private and parochial enrollment and modify the classification in some degree.

Destitution in Alaska.

WASHINGTON, Oct. 10.—In a report to the treasury department on the revenue steamer Bear in the Arctic ocean, dated Unalakleet, Alaska, Sept. 17, Captain M. A. Healy, commanding the vessel, says that they found many cases of destitution among settlers from the whaling fleet in the vicinity of Point Hope.

The schooner Silver Wave, of San Francisco, was wrecked on Point Franklin in October, 1890, and her crew were succored at the station until spring. Captain Healy says whalebone resembles specie in value, and he recommends government protection to the industry of securing it. The report that the crews of three vessels were killed at Herschel island, Captain Healy believes to be untrue. Many natives were found in destitution, caused largely, Captain Healy believes, by the refusal of the government to allow them to hunt with firearms, their spears being of little use since the wild animals have become so shy. Several school houses were established in places visited by the Bear.

Captain Healy says that the introduction of reindeer in Arctic country will do much to improve the condition of the people, the deer being available as food, clothing and traffic.

Indian Schools Visited.

WASHINGTON, Oct. 10.—Dr. Dorchester, the superintendent of Indian schools, in his report to the commissioner of Indian affairs, says that he had made 163 visits to schools in different agencies. In his estimates of the progress of Christianizing the Indians in the Dakotas, Dr. Dorchester says that from church authorities he learned that the Roman Catholic church Indian population in these two states is 34,000, while from 10,500 to 11,000 are of other denominations.

Iron Ore Bulletin.

WASHINGTON, Oct. 10.—The census office has made public a bulletin in relation to iron ore. It shows that the quantity of iron ore produced in the United States during the year 1889 to have been 14,518,041 long tons, valued at \$33,351,978, an average of \$2.30 per ton. The four leading states were Michigan, Alabama, Pennsylvania and New York, aggregating 10,334,258 tons or 70.40 per cent. of the total product. Capital invested, \$109,766,199.

Mexican Concession.

WASHINGTON, Oct. 10.—The Mexican government has just granted a concession for a standard gauge railway about 350 miles long from the City of Mexico to a town on the Pacific coast now known as Palizada Bay, and the letting of the contract will take place during the present month.

Elective Franchise Protected.

LYNCHBURG, Va., Oct. 10.—In the United States district court at Abingdon yesterday, Jack Mullins, of Buchanan county, was convicted of intimidating voters at the precinct in Buchanan at the last presidential election, and was sentenced to six months' imprisonment in jail and to pay a fine of \$500. This is the first conviction in Virginia under the federal laws for the protection of the elective franchise.

OHIO OIL.

Heavy Decrease in the Production—Weird Night Scenes.

ST. MARY'S, Oct. 10.—Your correspondent has interviewed several prominent oil men of this city in regard to the Ohio oil fields, and learned that the production this year will fall considerably short of that of last year. This is attributed mostly to the tilling of the Allen and Wood county fields, while the famous St. Mary's reservoir field, which has the past year created a sensation among oil men throughout the country, alone saved the field from a still heavier decrease, as the operations and production in this field have been something truly wonderful. Scarcely a well is being drilled near the great reservoir, just west of this city, that is not good at from one hundred to 400 barrels per day.

A great sensation was caused, however, a short time ago by the drilling in of a dry hole on the Blew farm, one of the most valuable oil farms in the county, and situated in the very heart of the great field. There still remains considerable undeveloped land, between the reservoir and this city, which is being held in reserve, as it is owned by the Ohio Oil company. The scene along the banks of the reservoir at night is one of unusual brilliancy, the scores of gas flambes, casting their reflection upon the water, making a grand sight. The average daily production of the Ohio field alone is some 65,000 barrels, while runs and shipments are only about 28,000 barrels. The Ohio oil now stored in tanks is over 28,000,000 barrels.

HER NAME WILL BE "RUTH."

What the Newcomer at the Cleveland Homestead Will be Called.

NEW YORK, Oct. 10.—Ex-President Cleveland said yesterday to a reporter of The Times in answer to an inquiry regarding the name of the newcomer in his house: "We have settled on a name, and it is 'Ruth.' This was the name of Mrs. Cleveland's grandmother, and has always been especially liked by her."

He said further: "In connection with the publication of this item, which, I hope, will end much apparent curiosity on the subject, I desire especially that mention be made of the extreme and kindly interests in us and our child shown by good people everywhere throughout the country. We have received almost innumerable congratulations and kind remembrances. From the president of the United States and from many a humble citizen have come heartfelt felicitations. All this has been very gratifying and has been fully appreciated, but, since it will be impossible to acknowledge all these messages separately, I hope this public recognition will be accepted as sufficient."

Not Guilty of Barn Burning.

TIPTON, Ind., Oct. 10.—The locally celebrated case of the State vs. Delavin Wilkins, charged with burning the barn of Cash Hobbs, of Madison township, some months ago, has resulted in the jury returning a verdict of not guilty. Never before in the history of the county has there been so much interest manifested as in this case. Over one hundred witnesses were examined on each side, and the costs aggregate \$2,000. Waugh, Kemp & Waugh represented the defense, while Beauchamp & Mount assisted the prosecution.

Probably Fatal Elevator Accident.

SHELBYVILLE, Ind., Oct. 10.—A serious accident occurred Friday morning at the finishing rooms of the Shelby Cabinet company. Joseph Shott, foreman; Clint Neeley and Henry Thayer were transferring furniture from the upper story and the elevator broke, precipitating the men and cargo thirty-five feet below. The unfortunate men were removed from the debris and physicians called. They are in a very critical condition, and it is feared their injuries will prove fatal.

A Home for "Land Bill" Allen.

COLUMBUS, O., Oct. 10.—Information from Guthrie, O. T., announces that when the news was published that William Allen, of Ohio, better known as "Land Bill" Allen, the originator of the homestead law was in the poor house, a movement was started in that city to have every homesteader in Oklahoma give twenty-five cents toward a fund which is to be used to bring Allen to Oklahoma and provide him with a farm and home for the rest of his days.

Elevator Falls.

INDIANAPOLIS, Oct. 10.—Mathias Dewald and William Stienecker were on the freight elevator at Severn, Ostermeyer & Company's yesterday when the fastenings broke and the elevator fell from the third floor to the cellar. Both of the men were very badly hurt, Dewald's injuries, it is thought, being fatal. Stienecker has his legs crushed and was also cut and bruised.

Big Lumber Sale.

CHIPPWA FALLS, Wis., Oct. 10.—Ben Sweet, as agent for the State Lumber company, has just concluded a sale to Fred Weyerhaeuser and the Mississippi River Logging company of 100,000,000 feet of timber in Sawyer county. The price paid is \$600,000.

Dry Goods Burned.

NORFOLK, Va., Oct. 10.—A fire last night, which burned several hours before it was put out, destroyed \$50,000 worth of dry goods in the store of Umstader & Company. The damage to the building, a four-story structure, \$50,000, is fully insured.

ROSSER & McCARTHY,
Proprietors.

SATURDAY, OCTOBER 10, 1891.

HANG out the flags, festoonings and bunting. Let everybody decorate.

DECORATE the city from one end to the other, and let us appear in our brightest colors next week.

THE Clermont (O.) Sun says: "We know of one precinct in this county where six life-long Republicans have left their party on the tariff question and will vote the straight Democratic ticket."

OHIO Republicans have dubbed the Democratic and People's party speakers, "calamity shriekers." The indications are that the "shrieking" will result in a "calamity" to the Republican party.

MERCHANTS, the Circuit Court will be in session next week and the Grand Lodge of Oddfellows will attract hundreds of other people here. Take advantage of the opportunity and advertise your fall and winter bargains.

EX-SENATOR INGALLS has been out of a job for quite a while now, but the Republicans are going to give him work for a few weeks in Ohio. He has been invited to make some speeches for McKinley and protection. Ingalls is a "back number" now, and all his talking won't help the G. O. P. much.

THE enemies of the new Constitution die hard. The suit to test the legality of the new organic law is their last move, and it will result as all their other efforts. The convention was not required to submit any of its work to the people for ratification. This was done, however, and the work was endorsed by 140,000. And the few changes afterwards made cut very little figure in it.

THE joint meeting between McKinley and Campbell at Ada, O., was a rouser. Twenty thousand people present. The Democratic nominee was at his best, and caught the crowd. During his closing speech of twenty-five minutes it is said there was a constant roar of laughter and applause, brought out by his keen thrusts and witty sallies at his opponent.

THE Democratic State Executive Committee is so well pleased with the meeting that they have ordered printed 500,000 copies of the report of the debate for distribution as a campaign document. If the Republicans intend distributing any copies of the debate, they haven't made it known yet.

GENTLEMEN were here this week trying to organize a company to establish a shoe factory. They are practical workmen, thoroughly qualified to take charge of such an enterprise. They asked for no donation or bonus, but simply that Maysville people put up the necessary funds. We understand that \$10,000 was promised by three men in one day, but the matter seems to drag. Wake up. This won't do. We believe the money necessary for the purpose can be raised with a little work.

The shoe factory recently established at Ripley is forced to double its capacity in order to accommodate its growing trade. Maysville is surely a better location in every way for such business than Ripley, and she ought to keep up with her sister cities.

EX-SENATOR INGALLS, of Kansas, will soon come to Ohio to "help Major McKinley out" in the present fight. His presence will only intensify the leaders of the People's party, and it's a question whether his speeches won't really help the Democrats instead of the Republicans.

A Flat Failure.

The Manchester Signal puts McKinley's meeting at Winchester at 5,000. The Enquirer's Republican correspondent at Winchester puts it at 4,000. The Commercial Gazette's correspondent puts it at 3,000. The West Union Defender puts it at 1,800. A gentleman from this place who attended puts it at 1,200. The Adams County New Era, Republican, doesn't "put it," evidently not desiring to prevaricate and at the same time not desiring to tell the truth. It wasn't up to expectations, and as a "rouser" was a dead, flat failure.--Georgetown News-Democrat.

Laura January Webb.

The sunny Southern poet, author of "Heart Leaves," "A Regime for Lee," "A Sentimental Prayer for National Peace" and "Custer's Immortality," most delightfully entertained a large and *vecherche* crowd at Chickering Hall. The lady's rendition of Bryant's poems from "The Groves Were God's First Temples" and "Thanatopsis" were most enthusiastically received.--New York Home Journal.

Mrs. Webb and son will appear at the opera house Monday night.

Suggestions For Councilman.

Editor Bulletin: Some of the present members of Council are at work on the quiet for re-election. We, the voters of the Third ward, believe the personnel of our Councilman can be improved upon, and with that end in view, we suggest the names of R. B. Lovel, T. A. Keith, Henry Ort, J. H. Pecor, David Frazee, Thomas Wells and A. Honan. All of the above mentioned gentlemen are largely interested in the city's welfare, and we urge upon some one of them to announce himself at his earliest opportunity.

MASONIC DOINGS.

New Officers of the Kentucky Grand Lodge—The Grand Chapter Squabble.

The Masonic Grand Lodge of Kentucky at its annual session in Louisville this week elected the following officers:

Most Worshipful Grand Master—James A. McKenzie, Oak Grove.
Right Worshipful Deputy Grand Master—J. Speed Smith, Richmond.
Grand Senior Warden—Jas. W. Staton, Brooksville.
Grand Junior Warden—H. H. Holeman, Madisonville.
Grand Treasurer—John H. Leathers, Louisville.
Grand Secretary—H. B. Grant, Louisville.
Grand Chaplain—H. R. Coleman, Louisville.
Grand Tyler—Joseph T. Davidson, Louisville.
Assistant Grand Secretary—James A. Hodges, Louisville.

The annual report of the Masonic Homes shows the following: Cash on hand at the close of last report, \$358.10; received from Grand Secretary, \$27,669.24; total, \$28,027.34. The disbursements, as per vouchers, were \$27,276.12. Amount remaining, \$751.22. The average cost per capita has been \$114.09. There has been but little sickness, and no deaths occurred. The total expenses for the year were \$22,432.67. The actual endowment fund amounts to \$176,262.94.

The Grand Chapter met, but the Grand High Priest, J. D. Powers, of Owensboro, was not present. There has been a dispute between the Grand High Priest and the other members of the Council as to the adoption of the constitution of 1890, which provided that the Grand Chapter should meet on the night of the first day of the Grand Lodge session. It was contended by the Grand High Priest Powers that Grand Chapter could not be legally opened until October 20th, and hence his absence. The ground of his opinion was that amendments which made radical changes had been offered and adopted without first submitting them to the subordinate chapters. The other members of the Council claim that the adoption of the amendments was legally done, and so called the Grand Chapter together.

After the opening of the Grand Chapter a discussion of the matter was had, and the majority of the sentiment seemed to be against the Grand High Priest. It was, nevertheless, decided to call off until the 20th, and then decide the matter definitely.

REVIEW OF TRADE.

R. G. Dun & Company's Weekly Report.

IMPROVEMENT IN BUSINESS

From All Parts of the West and South Come Good Advices—The News Regarding the Chief Industries is Decidedly Favorable—Brilliant Prospects for the Future.

NEW YORK, Oct. 10.—R. G. Dun & Company's weekly review of trade says: From all parts of the west and south come advices that business is gradually improving, and the improvement is felt at eastern centers. The news regarding the chief industries is decidedly favorable. Cotton has made satisfactory progress, and the receipts have greatly increased, and the prospect as to the yield is better than a week ago.

The iron industry is more firm in tone, and in spite of the small competition in rail making an output scarcely ever exceeded seems to be met by the consumption. The mills manufacturing bar iron, plates and structural iron are moderately employed, and a slight advance appears here for some forms of manufactured iron, but rails are very quiet. In copper there is uncertainty, with sales of lake at 12.35 cents; tin is dull at 20.10 cents, and lead in moderate demand. The market for wool is quiet at Boston and elsewhere, but sales are not small, and receipts at the west greatly exceed last year's. Worsted mills are running at full capacity.

Boston reports a good business, ample supplies of money and more inquiry for boots and shoes, with leather selling quite freely at full prices. At Philadelphia hardware is fairly active and more inquiry is seen for iron; wool is firm with less pressure to sell, and boots and shoes are selling more freely with fair trade in hides and leather. At Cincinnati and Cleveland fair activity is noted, and at Chicago trade thus far this year exceeds that of all previous years, sales of clothing and shoes being large, but of dry goods a little less than a year ago. The week's receipts of wheat are four times last year's, of rye ten times, and of wool double, with increase in dressed beef and hides, but decrease in other articles.

Trade is improving at Omaha; at Minneapolis, where lumber advances with unprecedented sales and flour mills are fully employed, the output last week being the largest on record; at St. Louis where the demand for money shows strong trade in most lines; at Kansas City, where better weather gives steady improvements and at Denver. At the south the improvement is also general, and heavy receipts of cotton are noted at Savannah, Charleston, Galveston and New Orleans.

The pause in stock speculation hinders the placing of securities for railroad extensions and improvements, but is nevertheless healthy. Cotton is slightly stronger. On the whole, the outlook for industrial progress is decidedly stronger.

The business failures occurring during the last seven days throughout the country number, for the United States 240, and for Canada 30, or a total of 270, as compared with a total of 230 last week, and 244 the week previous to the last. For the corresponding week of last year the figures were 215, representing 186 failures in the United States and 28 in the Dominion of Canada.

Mine Victims Buried.
POTTSVILLE, Pa., Oct. 10.—The burial of the five unfortunate victims of the Richardson colliery accident took place yesterday. Purcell was interred at Pottsville, and Lawler, Welsh and Clancy at Heckscherville, a few miles from the scene of the disaster, and Shields at Mahanoy City. Salmon, whose body was in the best state of preservation, will be buried at Minersville this afternoon. All the collieries in the valley were shut down. St. Kyran's church, where services were held, could not accommodate the vast number in attendance, men, women and children solemnly joining in the services from the outside. When the last rites had been performed at the grave, the vast multitude knelt down and offered up prayers in behalf of the victims of the disaster.

Injured in a Peculiar Manner.
CRAWFORDSVILLE, Ind., Oct. 10.—Miss Oakie Hanna, daughter of the late B. W. Hanna, and one of the leading society young ladies of Crawfordsville, met with a peculiar and dangerous accident yesterday. She was picking up with friends at Indian ford, and in order to go wading, donned a pair of rubber boots. Some one had dropped a box of matches in one of them, and when Miss Hanna thrust her foot in it the whole box exploded. Her foot and ankle were burned in a terrible manner before she could remove the boot. She is suffering intensely from the burns.

Fatal Shooting Affray.
NASHVILLE, Oct. 10.—William Amacher, a well-known race horse owner and trainer, shot and killed Pat Milliron, pitcher for the Nashville Maroons, and who is also connected with race horses, last night at West Side park, this city. The trouble is supposed to have occurred about a woman. Amacher called Milliron to the stable door and shot him without warning. Amacher formerly owned Sally Haganworth and other good racers. The murderer has not been captured.

Sad Case of Suicide.
ENGLISH, Ind., Oct. 10.—An exceedingly sad case of suicide is reported at Petrona. Mrs. Thompson Garrison, while suffering with toothache, having tried every available remedy, applied corrosive sublimate, which only augmented the torture. Then she swallowed the contents of the vial, dying in a few hours. She leaves five young children dependent upon her widowed husband, who may shortly die of consumption.

Murderous Hired Girl.
MOUNT VERNON, O., Oct. 10.—Mrs. James Wing was attacked yesterday evening by her hired girl, who inflicted several wounds on her head with a hatchet and then fled. The girl, whose name is McGough, has not been found.

OUR NEIGHBORS.

LEWISBURG.

There are to be several weddings in this neighborhood.

Mr. and Mrs. T. C. Power and little daughter visited Mrs. James E. Cahill a few days since.

Messrs. J. E. Cahill and P. T. Calvert attended the tobacco sales in Cincinnati this week. They report tobacco very low.

By the death of Mr. Flen. McDaniel, Lewisburg has lost one of her best citizens.

Miss Georgia Thompson, Miss Rogers and Mr. Hill, of Sharpsburg, are visiting Miss Lena Alexander.

Quite a gay party from Maysville were out serenading Tuesday night. The music was very sweet.

Kind Words.

Elder H. E. Light, of Mountainville, Lancaster County, Pa., has a good word to say for a patent medicine. We will give it in his own words: "Chamberlain's Colic, Cholera and Diarrhoea Remedy was used in my family and can say that it done us good in diarrhoea and cholera morbus. I do not hesitate to recommend it to all suffering from the above diseases." Twenty-five and fifty cent bottles for sale by Power & Reynolds.

Its Excellent Qualities

Commend to public approval the California liquid fruit remedy, Syrup of Figs. It is pleasing to the eye, and to the taste and by gently acting on the kidneys, liver and bowels, it cleanses the system effectually, thereby promoting the health and comfort of all who use it.

The breaks continue large, and, while there was some improvement in the market, prices were not unreasonably advanced. There was a comparatively good supply of good and fine leaf, and for these grades an active demand prevailed. Buyers taking all offered at full quotations.
